Adjustable Pump Bases

Part #12012	BASE PUMP 2-10 HP ADJ 7"-11"	TYPE A
Part #12013	BASE PUMP 2-10 HP ADJ 12"-24"	TYPE B
Part #12014	BASE PUMP 15-75 HP ADJ 7"-11"	TYPE A
Part #12016	BASE PUMP 15-75 HP ADJ 12"-24"	TYPE B

Adjustable Pump Bases available for most motor mounting frames from 2HP to 75HP
 Two sizes of adjustment range available. 7"-11" and 12"- 24" adjustable in 1/2" increments.
 All mounting hardware and concrete anchors included.
 1/8" rubber vibration isolator included.
 8 ga. Stainless Steel construction with a fusion powder coated finish.

R-5/5/11

ADJUSTABLE PUMP MOUNTING BASE

- A. The adjustable pump mounting base shall be designed in 2 sizes to accommodate motor frames up to 10 HP and from 15 HP to 75 HP. Both models will provide height adjustment in 1/2" increments. The smaller unit range of adjustment will be 7"-11" and the larger unit will be 12"-24"
- B. The pump mounting base shall be fabricated from 8 gauge T304 stainless steel.
- C. All stainless steel hardware shall be included for height adjustment, motor mounting and floor anchors.
- D. A rubber vibration isolator shall be included for installation between the motor and base.
- E. The pump base shall be powder coated with a 20-25 mils electrostatic applied powder coat finish including clear coat. Unit shall be suitable for grounding as required.
